

LETTER OF INVITATION

March 27, 2012
<ICCF-17_001>

Name Dr. Gennadiy Tarassenko

Affiliation Caspian State University Of Technology And Engineering named after Sh.Yesenov, Oil and Gas Institute

Address Kazakhstan, Aktau, 32 District

Country Kazakhstan

Paper No.: P_1006

Paper Title: Geological aspects of cold fusion.

On behalf of Organizing Committee of the ICCF-17, it is a great pleasure for us to invite you to International Conference on Cold Fusion (ICCF-17), which will be held in Daejeon, Korea, August 12-17, 2012.

ICCF has been the oldest conference dedicated to “Cold Fusion”, also known by several names including Condensed Matter Nuclear Science (CMNS), Low Energy Nuclear Reactions (LENR) and Lattice Assisted Nuclear Reactions (LANR). ICCF-17 offers a unique opportunity for scientists from around the world to come together to share experimental results and ideas in this most interesting and important scientific area.

As a chairman of ICCF-17, I promise to be the most interesting and timely conference. The city of Daejeon which is home to many national research institutes in Korea is the perfect place for the ICCF-17.

I sincerely believe this conference will be a unique and wonderful occasion with your participation, and you will have a great time by enjoying the beautiful city of Daejeon, Korea.

We look forward to seeing you soon in Daejeon, Korea!

Sincerely Yours,

Sunwon Park, Chairman
Professor of Chemical and
Biomolecular Engineering Department
KAIST
Daejeon
Republic of Korea

Frank Gordon, Co-chairman
Senior VP, Global Energy Corporation
Retired Head, Research and Applied Sciences Dept
US Navy SPAWAR Systems Center
San Diego, CA
