

Nu Energy Electric Generator Public Schematic – by Bruce A. Perreault Dec. 21, 2005

1. 12 volt storage battery
2. 12 volt storage battery
3. Switching relay
4. On/off switch
5. Filter battery
6. 12 volt 60Hz. inverter
7. 110 volt to 10,000 volt step-up transformer
8. Tesla coil high voltage capacitor
9. Copper coated carbon welding gouging rod
10. Copper coated carbon welding gouging rod
11. Variable high frequency auto transformer inductor
12. Low voltage, high amp, high frequency diode
13. Low voltage, high amp, high frequency diode
14. Low voltage, high amp, high frequency diode
15. Low voltage, high amp, high frequency diode
16. Direct Current output
